(c) *Metal halide lamp fixtures and metal halide ballasts—(1) Contents.* Metal halide ballasts contained in a metal halide lamp fixture covered by this Part shall be marked conspicuously, in color-contrasting ink, with a capital letter "E" printed within a circle. Packaging for metal halide lamp fixtures covered by this Part shall also be marked conspicuously with a capital letter "E" printed within a circle. For purposes of this section, the encircled capital letter "E" will be deemed "conspicuous," in terms of size, if it is as large as either the manufacturer's name or another logo, such as the "UL," "CBM" or "ETL" logos, whichever is larger, that appears on the metal halide ballast, or the packaging for the metal halide lamp fixture, whichever is applicable for purposes of labeling.

(2) *Product Labeling.* The encircled capital letter "E" on metal halide ballasts must appear conspicuously, in color-contrasting ink (*i.e.*, in a color that contrasts with the background on which the encircled capital letter "E" is placed) on the surface that is normally labeled. It may be printed on the label that normally appears on the metal halide ballast, printed on a separate label, or stamped indelibly on the surface of the metal halide ballast.

(3) *Package Labeling.* For purposes of labeling under this section, packaging for metal halide lamp fixtures consists of the plastic sheeting, or "shrink-wrap," covering pallet loads of metal halide lamp fixtures as well as any containers in which such metal halide lamp fixtures are marketed individually or in small numbers. The encircled capital letter "E" on packages containing metal halide lamp fixtures must appear conspicuously, in color-contrasting ink, on the surface of the package on which printing or a label normally appears. If the package contains printing on more than one surface, the label must appear on the surface on which the product inside the package is described. The encircled capital letter "E" may be printed on the surface of the package, printed on a label containing other information, printed on a separate label, or indelibly stamped on the surface of the package. In the case of pallet loads containing metal halide lamp fixtures, the encircled capital letter "E" must appear

conspicuously, in color-contrasting ink, on the plastic sheeting, unless clear plastic sheeting is used and the encircled capital letter "E" is legible underneath this packaging.
